ABOUT

Software Engineer who thrives when owning complex projects end-to-end. Known to drive stakeholder alignment, collaboration and documentation of system designs, and development of projects to completion.

EXPERIENCE	<i>Staff Software Engineer</i>	2020-Present
	<i>Senior Software Engineer</i>	2018-2020
	<i>Software Engineer</i>	2015-2018
	Sonder , Montreal, QC & San Francisco, CA	

- Current Team Lead for the Revenue team.
- Designed and completed our revenue platform responsible for calculating and tracking revenue at Sonder. Proposed the project, got funding for it and took it over the finish line with a very small team.
- Led the technical implementation of the rebrand from Flatbook to Sonder.
- Came up with questions, refined rubrics and performed interviews as the tech team grew from 5 to 100. Lead over 250 interviews in a year.

Ruby on Rails, PostgreSQL, Python, Serverless, Lambda, DynamoDB, React.js & Redux

<i>Software Engineer</i>	2014-2015
Provender, Farm to Fork online marketplace , Montreal, QC	

- Fully implemented an invoicing tool allowing vendors to create and track invoices pertaining to products sold on the platform.
- Redesigned and built schedule and geo-based product availability within Provender's marketplace.

Ruby on Rails, PostgreSQL, PostGIS, RSpec, Backbone.js, Marionette.js, Zurb Foundation, SASS

EDUCATION	<i>Bachelor of Engineering, Software</i>	2010-2014
	McGill University, Montreal, QC
